ABBEVILLE, S. C., WEDNESDAY, JANUARY 20, 1915.

ESTABLISHED 18

INAUGURAL ADDRESS OF GOV. R. I. MANNING

tlemen of the General Assembly:

In assuming the duties of governor I am mindful of the responsibilities of the position. I invoke Divine guidance and earnestly pray that wisdom, all that may come to me as duty.

Under our form of government we have the executive, legislative and ju- shall be educated. This is manidictal branches each separate and distinct from the other, and each a check on the other.

The governor of the state is at the head of the executive branch. It is his duty to enforce the laws as they stand on the statute boks. It is not are doing splendid work. We must his prerogative to decide whether a provide liberally for their support so law is wise, or best suited to a community, but he is to see to it that the law is obeyed.

I have faith in our people; I believe that they want the laws enforced, and subject. The watchword of my campaign last summer was the enforcement of the law. I now declare afresh my purpose to carry out in good faith, this pledge. I believe in home rulelocal self-government, and I expect every one who is charged with enforcement of law to do his duty. My and the general awakening that has

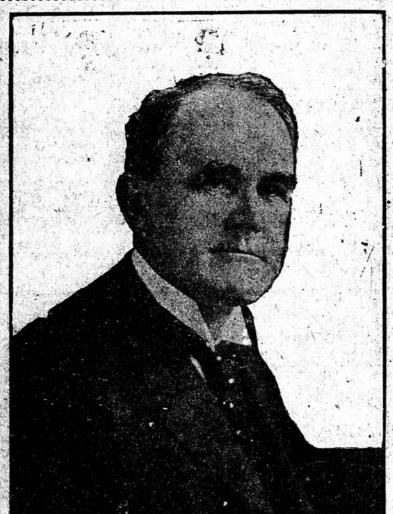

Mr. President, Mr. Speaker and Gen- portunity to vote once and that no man shall be allowed to vote more than once.

Education.

It is gratifying to know the progress me to see clearly and to do justly in our people are aroused to its para- best and unfaltering effort. mount importance; that they are determined that the children of our state fested in the spirit of self-help, and each year sees a substantial increase in the number of school districts that tax themselves for school purposes.

Our institutions of higher learning have shown steady growth and that their growth and development can be maintained. But the fact stares us in the face that we are in a period of general business depression and we must jealously consider their conscience is awakened on this every item of expenditure, to save the people from unnecessary burden. I suggest, therefore, that at this time we should not undertake any enlargement of these plants or any un necessary expenses.

Notwithstanding the progress we are making in educational facilities

HON. RICHARD IRVING MANNING Governor of South Carolina

desire is that in each community the come to us, we must frankly admit laws shall be enforced by the local that we are still far short of the poauthorities. I take this, the very first sition we should occupy in the work occasion, to say to these authorities of education. It stands to our shame that I stand ready and eager to co that the percentage of illiteracy operate with them in this work, and among our citizens is so great. This that they may be assured of my aid stain must be wiped out; and to do with every available lawful means to this, we must tax ourselves liberally attain this object. Let me add another for the public schools, in order that word, not as a threat, but as a their usefulness may be increased, warning; if in any community the lawful authorities fail to enforce the laws, it will then be my duty to see that the laws are obeyed. This I in-

The constitution provides that the governor may make such recommendation to the general assembly as, in his judgment, are good and

The time has come when we have to meet new conditions; we are living be encouraged to have at least a in a time of change and progress. This condition eives us new problems to solve—new difficulties to meet. We are to be congratulated in having at the head of the nation a man of great discernment, courage and ability, who is dealing with national questions statesmanlike way. May I hope that we will seek inspiration from that example to deal with state questions with wisdom and cour-

We are progressive Democrats and we must have the courage to do justly to each and every class of our citizens, even if it requires legislation hitherto untried by us.

Primary Election Law. In my judgment, the people of this state, regardless of party, owe a debt of gratitude to the last state convention of the Democratic party for adopting rules and regulations governing the primary elections. It is due to the members of that convention to say that the apprehensions of those who opposed personal enrollment were not justified, and that personal enrollment, together with the publicity given to the rolls of the clubs, saved us from irregularities, and charges of fraud. So far as I know, the last primary election was one in which the will of the people was honestly expressed by their ballots, and these were fairly counted. I recommend, therefore, that your honorable' body shall enact into law for primary elections such provisions as controlled the fast Democratic primary election, in order that, in all primary elections, each and every man entitled by law to vote, shall have the right and op- dren shall be required to attend the fertilizers, our farmers have not ade-

and that the opportunity for education may be given to all of our boys and girls. We must encourage the spirit of selfhelp and every district should first impose a local tax by the vote of its resident voters before receiving state aid. Yet, the growth of the public schols will be determined largely by the amount of state aid. Weak country schools must be helped and every community must seven months' term, and 'no teacher should be required to teach more than fifty pupils. The state cannot have an educated and efficient citizenship unless it extends help to weak and undeveloped districts. Any community voting a liberal tax and enrolling forty or fifty children, should be assured of adequate educational facilities. It is the duty of the state to make up deficiencies in such dis-South Carolina will stand for this exindorse the position that we cannot spend public money better than in educating the citizen. The people realize and demand that the shame of illiteracy must be blotted out from us

Mill Town Schools The problem of public schools in manufacturing centres and mill towns demands attention and study. The state cannot longer overlook the needs of children in such communities and should encourage the spirit that will bring substantial and marked results in public education, civic growth and community cooperation and development. I recommend that the state department of education be given such additional help in its mill schools what has been done so effectively in high schools and rural

Attendance.

As soon as ample school facilities shall have been provided, the welfare of our people demands that our chil-

schools. The policy of the state is to mow what ingredients in fertilizers Quiet Around Soissons Earthquake Stricken Dis-Characteristic Figure of all the people for the welfare of all the people. I recommend, therefore, the enactment of a compulsory attendance law with local option feature. We must strive to bring each and every community to the point of having school facilities; and, wherever these facilities are acquired, to require school attendance.

Picture to yourselves what it would mean to South Carolina if all of her we are making in education; it is citizens were educated, and for the atcourage and strength may be given even more gratifying to realize that tainment of this object we give our

Child Labor.

I recommend, as a companion act to the compulsory attendance law with local option feature, that you will amend the law on child-labor by raising the age limit from twelve to fourteen years.

Taxation and Assessment,

in our tax laws. We have, in the past, given more attention to appropriations than to revenue. We must increase our revenue or decrease our expenditures in order to stop the evergrowing deficiency. The reports of the departments reveal the fact that there is now a large accumulated deficiency that must be provided for. Assessments are now unequal and unjust. Much property escapes taxation: different classes of property are assessed at different percentages of their value. Increased expenditures for educational and charitable institutions, as well as increased expenses in the judicial department, necessitate the devising of progressive and more modern methods of raising revenue. I would therefore recommend that a tax commission be created to examine into this subject and suggest a bill embodying a plan of revision of our tax laws. In order to acquaint this commission with existing conditions, the duties now imposed upon the state Board of Equalization and the State Board of Assessors, should be devolved upon it. Supervision of the enforcement of existing tax laws, should be given, temporarily at least, to this commission, with power to equalize the assessed valuation of property between county and county and between tax district and tax district, increasing or decreasing assessed valuation, as may be found necessary. Annual appropriations should be made by the legislature for state, county, and school purposes and the tax commission should be authorized to impose such levy upon the assessed valuation of property, when ascertained by it, as will raise the amount necessary to meet the appropriations made by the legislature. The method of taxation, the levying of the burden so as to secure justice between the tax payers, is of as great importance as the fixing of the appropriations by the leg-

In this connection, as there is now in force a Federal tax on income, and income tax has been so ineffectual in obtaining true and just returns thus. the repeal of the state law taxing in-

Workmen's Compensation Act. on the employer; and just as freommend the appointment of a comcompensation act.

Land Registration. The delay in congressional action, on the establishment of a rural cred-It system, makes it necessary for us to look to ourselves for help in this lines. This would enable the landowner to obtain loans on his real expense as he is now able to do on tricts. The right-thinking people of step before we can provide a system order to increase the number of home rural homes and the conditions of life and adequate return. in the country. Ownership of home means permanency of tenure; permanency of tenure means improvement of conditions of life and surroundings. If every farmer owned his place and lived upon it the problems of rural life would automatically solve themselves; isolation removed, homes of self-help and public responsibility would be more comfortable; there would be better churches, better schools, better roads, and community life more attractive. I realize that this may be classed as progressive legislation, and we have limited precedence for it in the country, dating back forces, that will enable it to do in only to 1910. I do not advise these land banks as state institutions, but that they should be developed by independent organizations under state supervision.

Fertilizers. Under existing laws regulating the manufacture and sale of commercial

ere best adapted to their lands, and what ingredients should be avoided. This matter should be considered with great care; the interest of the farmer who is the consumer, as well as the interest of the honest manufacturer, should be carefully guarded. I would recommend, therefore, the creation of a commission to consist of representatives of the fertilizer department at Clemson College, of farmers, and of representatives of the manufacturers, to revise our fertilizer laws and to report by bill to the next session of the legislature. Auditing. I recommend that all state institu-

tions should be examined and accounts audited regularly. I suggest that you devolve this duty upon the state bank examiner, and give that department the necessary additional force to enable it to do this work thor We all agree that change is needed oughly and effectively. I recommend the enactment of

low providing to rthe medical inspection of pupils in the public schools under the supervision of the state board of health in co-operation with the state board of education, and with due provision for the protection of the pupils.

Penal and Charitable Institutions. It seems to me that it would be wise to consider our penal and charitable problems as a whole. There is a lack of co-ordination in the system of management of the state penisentiary, state hospital, reformatory, jalls, chaingangs and alms houses of the state, counties and offies. We should develop our humanitarion undertakings. In this work we have the examples of other states, notably Virginia, illustrating what may be accomplished by having a state board of charities. I recommend, therefore, establishing, in this state, such a board, for, though the proposition volves an evpenditure each year, if this work is properly done, it would mean greater economy and efficiency in these institutions.

National Guard. I favor a strong, well-maintained well-disciplined National Guard, and urge that adequate appropriation be made for it, to make it an ecective factor in the state government. South Carolina must have an efficient and offective National Guard.

I will, at a later date, submit for your consideration, by special message, sugestions relating to the state institutions, especially the Hospital for the Insane, to which I am devoting special consideration.

I will also communicate with you later, on the subject of roads, the Confederate Home, the Confederate veterans, and the needs of the state board of health; also the Lever bill, cattle tick eradication, and other subjects pertaining to the interest of our

and adequate return.

Conclusion.

In conclusion; permit a personal reference. From my earliest youth the ambition to be the governor of South Carolina has filled my breast. To serve my state is my ardent desire—to join all other patriotic citizens in the effort to do their service and help in the upbuilding of her resources and in the character of her citizenship. I appeal to all citizens to join me in the determination to place and to keep South Carolina in the forefront among her sister states in progress, in moral tone, and in an enlightened and educated citizenship. I am confident that I voice the desire of a large majority of South Carolinians when I urge our people now to turn their backs on past factional bitterness and dissension, to look forward, turning their faces people now to turn their packs on past factional bitterness and dissension, to look forward, turning their faces resolutely to the future. The vision of a people reunited must be kept before us; a people determined to take advantage of the resources which God has put within our grasp, to develop these resources; to build up our waste places; to diversify our crops and industries; to educate and uplift our citizenship, and to that end I pray that God may give to me and you a wise and understanding heart, that we may be able to discern the evil from the good, and that He may give us the spirit to think, to say and to do such things as are right, and that His blessing may be upon us in our efforts to serve our state.

May Be Storm Prelude

London, Jan. 18 .- The German ofacial report's omission of reference to Soissons, the scene of the recent marked German success, and French statement that there has been no change in that region lead to the belief that the renewal of the violent struggle is impending ,the temporary quiet being due to the fact that neither side cares to risk an offensive in the present circumstances

At widely separated points where in the West there have been engagements, but the weather again is playing an important part. The storm in Belgium prevents operations except artillery duels, and snow in the Vosges at the other extremity of the line makes manoeuvres exceedingly difficult.

In the Argonne, however, fighting is almost continuous and each side claims minor successes. For the time being the Germans seem to be more

on the offensive than the defensive. The German reports of all the Eastern operations are brief, but those from the West are more in detail and it is believed the Russians again menace East Prussia and Posen.

The Tarks, according to reports have been dealt another staggering blow after their determined stand in that you consider the advisability of the snow at Kara Urgan in the Cau casus. They are fighting rear guard actions but are being pressed back in disorder toward Erzerum.

The Turkish garrison at Adrianople the partial withdrawal of which was previously reported, has now completely withdrawn, according to an Athens dispatch, which gives no exrlanation.

The London papers print a forecast appearing in the Paris Figaro that even attacked automobiles on Italy, Greece, Roumania and Bul-roads. garia will join the allies, but there is nothing more definite relative to this turn of affairs than there was a fort-

Extra Communication.

There will be an extra communication of Clinton Lodge No. 3, A. F. M., at 7:30 clock Thursday evening, January 21st Third degree. By order of the Worship-

Otto Bristow, Secretary.

List of Prize Winners.

berken "	375 NO. OF
Miss Elizabeth McCord	5,618,195
Mrs. J. R. White	8,047,865
Miss Eliza Lindsay	1,711,500
Mrs. W. E. Owen	1,628,115
Abbeville Fire Department	1,278,740

Of the other contestants, Mrs. Lewis Perrin received 1,138,495, and the U. D. C.'s received 1.259,705 votes. Each of the othars received less than a million votes.

MEETING OF THE U. D. C.'S

The regular monthly meeting of the U. D. C.'s was held at the home of Mrs C. C. Gambrell Tuesday afternoon Jan. 12th, at 4 o'clock. The president, Mrs. Lucy Thomson, being absent, the vice-president, Mrs. Gambrell, presidsecretary and approved. A report from the treasurer was heard, this report stated that all obligations for the past year, 1914, had been met and a small sum left on hands.

Arrangements for memorial exerises were discussed and the Chapter decided to again offer two medals, one to the boy, and one to the girl, having the best essay on some subject to be suggested by a committee consisting of Mrs. C. C. Gambrell, Misses Marshall and Mae Robertson.

A letter was read by Mrs. Gambrell from Miss Earl, State President U. D. C.'s, requesting the Chapter to sign a petition asking the delegation from Abbeville county to the Legislature to vote for a bill which is to come before the House this session, to the purpose of instituting a circulating li-

brary. This year the chapter is taking up istoric subjects and members who vish, volunteer to write on them, and thers join in the general discussion. The idea being to cause the members te make extended research concernng matters of local historic interest. A poem was read by Mrs. R. E. Hill. During the social half hour, Miss Renwick, of Roanoke, Va., sang several selections, accompanied on piano by Miss Fannie Harris, which

were gretly enjoyed. Delicious refreshments of chocolate and cakes were served by the hostess assisted by her young daughter, Miss Elizabeth, and Miss Georgia Edwards, Breese, will be the big picture for Fri-newspaper adventure starring Irene sister of Mrs. Gambrell.
